Past for iChat: Open old iChat chat log files on macOS Big Sur

MAGDEBURG — Feb 26th, 2021

ZeeZide GmbH is happy to announce the release of **Past for iChat**, an application that enables opening old iChat chat log files on macOS Big Sur and later.

Past for iChat is a little application to open and view old chat log files created by Apple's iChat application an macOS Big Sur and later. iChat was the predecessor of the new and improved Messages.app in macOS 11, which doesn't support opening iChat files anymore.

The application also features a simple Markdown export of the chat logs and a Quick Look plugin for previewing chat logs in Finder, Spotlight or other applications.
